

Each of the target and indicator diagrams we include shows a range of indicator options. These could be developed to provide a feasible global measure of the target as part of a 3-sided indicator basket that combines measures of capacity, the 'objective' situation and perceptions. In each case, we have placed the indicators we consider more promising (i.e. more feasible, acceptable and relevant) closer to the target.

Over the past year, how often, if ever, have you or anyone in your family had something stolen from your house?
